## TEXAS' NEW VACCINE RULE

### WHO MUST HAVE IT?

In accordance with Texas law, The University of Texas-Pan American requires all first-time students, including transfer and returning students under the age of 30, to submit evidence that the student has been vaccinated against bacterial meningitis 10 days prior to the first class day of the semester or to provide other documentation establishing why such a vaccination is not required.

### IMPORTANT

Students will not be allowed to enroll without providing proof of the vaccination or exemption.

### WHAT PROOF IS NEEDED?

A copy of an immunization record from the student's country of origin is an acceptable form of proof of vaccination that can be mailed, faxed, emailed or hand delivered to the Admissions and New Student Services Office.

### OR

A "Refusal of Immunization for Medical Reasons" signed by a physician, who is licensed and registered to practice medicine in the United States, which states the physician's opinion that the required vaccination would be injurious to the health and well being of the student.

### OR

An approved "Texas Department of State Health Services Conscientious Exemption" signed by the student stating that the student has declined the vaccination for reasons of conscience, including religious belief.

### WHERE CAN I GET VACCINATED?
