

UTRGV™ Dual Credit Enrollment Information

| | |
|--------------------------------|--|
| Purpose | Dual credit is available at UTRGV for qualified high school students who are ready for university-level work. This is an opportunity for these excellent students to challenge themselves and provides a pathway into university studies. |
| Cost | Dual credit courses will be provided at no cost to students or districts; however, UTRGV does not provide textbooks or required materials. |
| Adaptability | UTRGV is willing to work with school districts to develop dual credit options that best suit their students' needs, with flexible options for scheduling courses. |
| Course Options | Qualified students are welcome to take approved courses that meet the Dual Credit designation and are part of the UTRGV General Education Core Curriculum. Please contact us for more information. |
| A University Experience | Our most popular and preferred dual credit model is to enroll students in courses with our regular UTRGV students, either in online classes or in face-to-face courses on our campuses in Brownsville and Edinburg. These high school students experience their UTRGV courses in the same way and with the same expectations and supports as other UTRGV university students. Dual credit students enrolled in our university courses are generally very successful. |
| Individual Students | Individual students are welcome to enroll in online or face-to-face classes with the general student population that meet once or twice a week in Brownsville or Edinburg. With the thousands of courses available on our campuses, we can typically place qualified students in a variety of courses that will meet their curricular needs and engage their interests. |
| Groups of Students | We are happy to work with school districts to develop course offerings for groups of students as well. Courses taught on Fridays are offered only once a week, providing a convenient option for transporting groups of students to and from a UTRGV campus. |
